MASARAT AL-IRAQ INFORMATION TECHNOLOGY CO . LTD

Our Services

MPLS SERVICE

Masarat Al Iraq offers a comprehensive international MPLS network designed to simplify and optimize global connectivity for organizations with operations across multiple countries. Managing services through local providers can be complex, costly, and inefficient—Masarat's MPLS solution eliminates these challenges by seamlessly interconnecting international branch offices, dealers, and partners on a unified platform. This high-performance network is ideal for mission-critical applications and enables the convergence of data, voice, and video, ensuring secure, reliable, and streamlined business operations.

DEDICATED INTERNET ACCESS (DIA)

Our Dedicated Internet Access (DIA) service offers high-speed, reliable, and secure internet connectivity tailored for businesses needing superior performance.

B2B SERVICES

Through our sister company and leveraging modern, reliable infrastructure, Masarat offers comprehensive B2B connectivity solutions with end-to-end service. We provide flexible connectivity options with an optional last-mile connection via wireless or fiber optic, ensuring seamless and scalable connections tailored to business needs
